This summer season it's all about bright hues. But be sure to keep in mind that fashion is an art, as exemplified by Coco Chanel. Making the right choices and coordinating the right shades will create a masterpiece and the wrong move will leave you ending up looking like a Picasso.

The rules are simple...Remember the color wheel? Opposite tones bring out the best in each other while its neighboring color brings harmony while others simply clash

(hence Purple and Yellow).

Yellow is the color of confidence and it symbolizes wisdom, joy and the optimistic power attention-getter. If you'

re going for a yellow skirt remember pairing it with browns and whites always works well and for a dramatic effect try black.

Yellow Combinations:
 Yellow + Green
 Yellow + Navy + Pink
 Yellow + Black + White

Leatrice Eiseman author of [More Alive With Color](#) suggests wearing orange when first meeting someone for the first time. It makes the person more approachable.

Orange instantly is the color of ambition, creativity and a compromise of aggression. Blue denim works well with orange hues because it sits directly opposite on the color wheel.

Orange Combinations:
 Orange + Pink
 Orange Persimmon + Navy
 Orange + White
 Orange + Brown
 Orange Tangerine + Powder Pink + White

Green is the color of spring. The vibrant hues are full of life, youth, freshness and calmness. Like its friend Blue, both are heavenly and bring serenity.

Green Combinations
 Green + Aqua
 Green + White
 Green + Coral
 Green + Brown

Pink

The mix of white and red hues, create passionate, pure, romantic and feminine color. Pink is the color of not only everything that glorifies femininity but also is the color of friendship, honor and tranquility.

Combinations of Pink:
 Pink + White
 Pink + Tangerine
 Pink + Brown
 Pink + Turquoise
 Watermelon Pink + White
